

DIY Natural Moth Repellent

Non toxic, natural moth repellent that is easy to make yourself using cedarwood essential oil.

Cedarwood has a natural aroma that deters moths, silverfish and other annoying critters from invading your drawers, cupboards and wardrobes and is a fabulous eco-friendly alternative to chemical moth balls.

DIY Natural Moth Repellent

Repelling Moth Jars

Ingredients/Items:

Cedarwood Essential Oil / 1

Repurposed glass jar / 4 Cotton Balls

Place 2 drops of Cedarwood Essential Oil on each of the cotton balls then place these inside your repurposed jar. Store the repurposed jar into your wardrobe without a lid. Replenish the Cedarwood oil each month to continue to repel moths.
